

Appendix D

Kincaid's Lupine Two Kilometer Buffer Survey

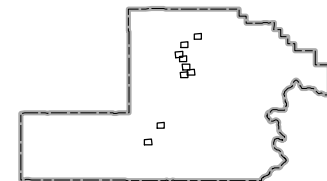

This Page Intentionally Left Blank

Appendix D

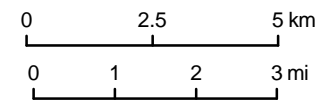

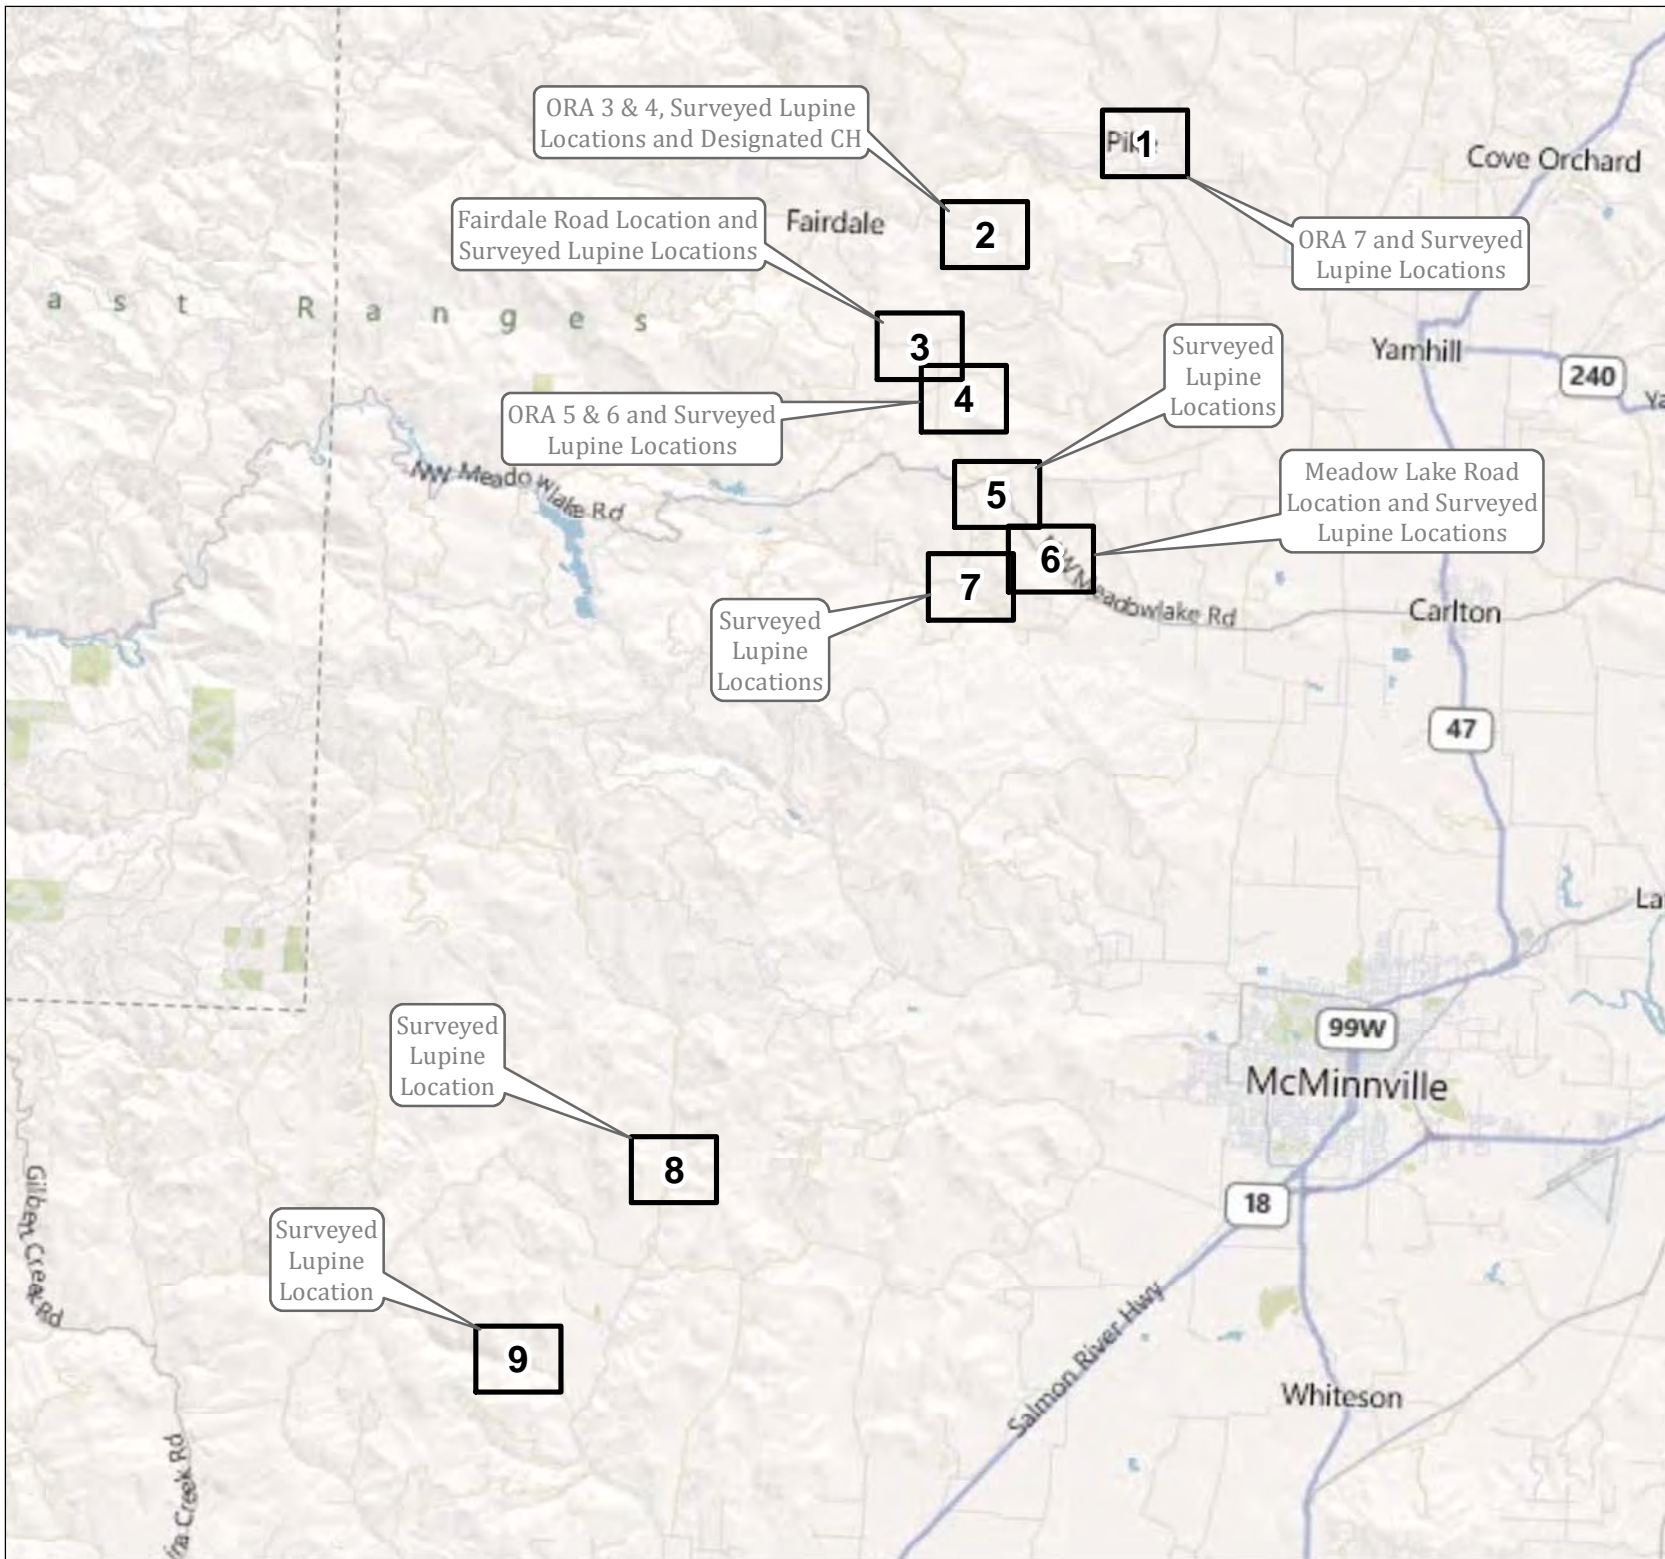

These maps identify where Kincaid's lupine was found during the 2 km buffer survey (June 29-30, 2011; Appendix B). The 2 km buffer survey was done at the request of U.S. Fish and Wildlife Service to identify additional Kincaid's lupine that occur in the Fender's blue butterfly's dispersal zone. Because these lupine occur within 2 km of known Fender's blue butterfly locations, they could potentially be colonized by the existing Fender's blue butterfly population. Each map in this appendix isolates a portion of Yamhill County where new Kincaid's lupine was identified. The location of these sites within Yamhill County can be identified by correlating the sheet number (e.g. Sheet 3) with the overview map or with the smaller county map(s) in the right-hand corner of the individual sheets. The following acronyms are used in these maps:

- GVA – Gopher Valley Area
- ORA – Oak Ridge Area

Special Maintenance Zones

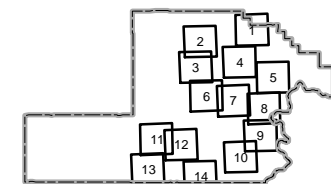

This Page Intentionally Left Blank

Appendix F

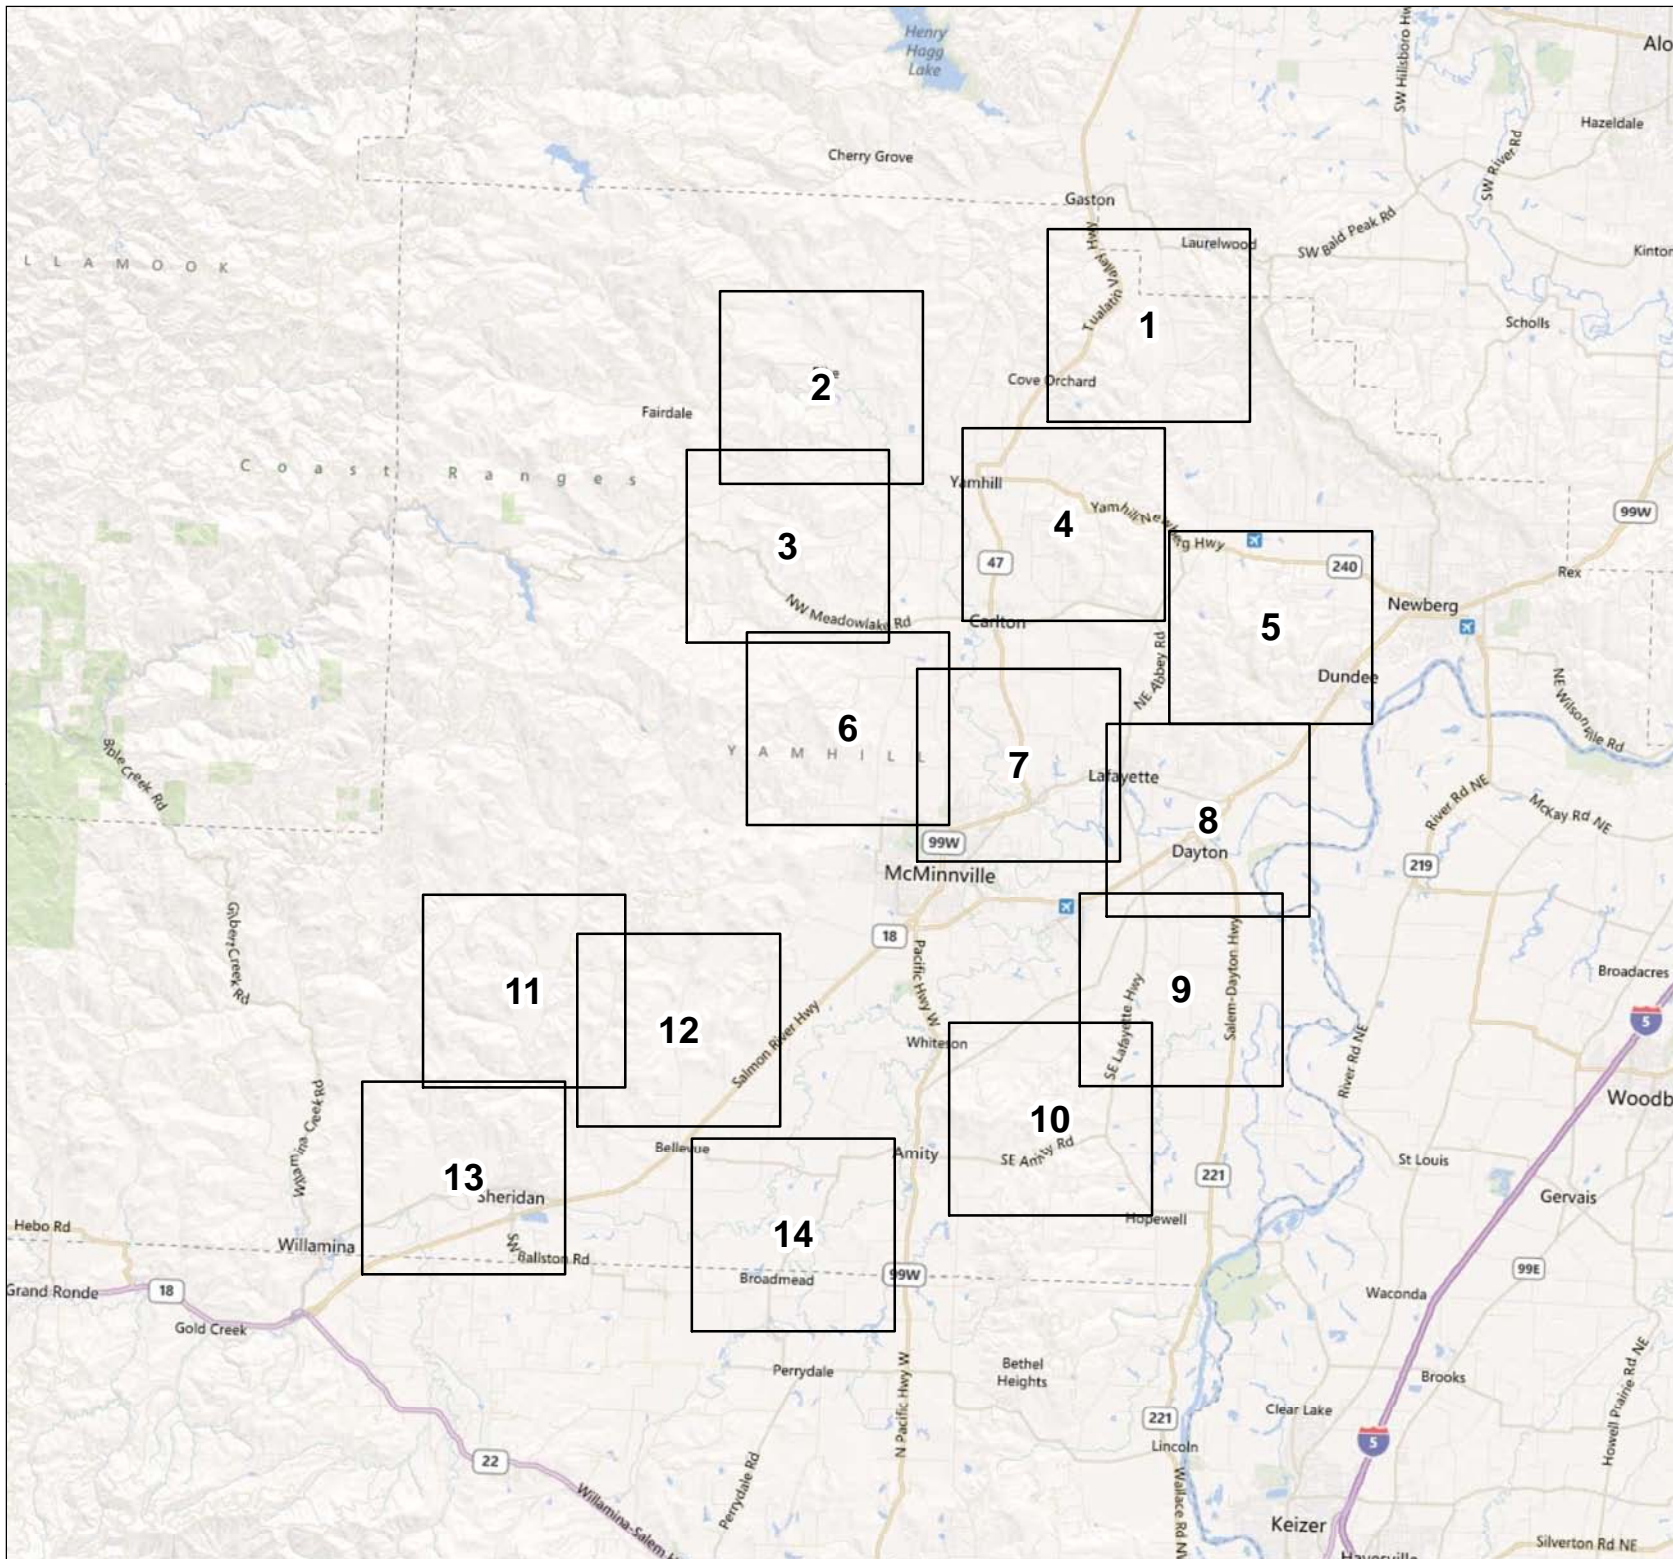

These maps identify Threatened and Endangered Species Special Maintenance Zones (T&E Special Maintenance Zones) and Vineyard Special Maintenance Zones that are maintained by Yamhill County. The T&E Special Maintenance Zones encompass the U.S. Fish and Wildlife Service known locations and the Kincaid's lupine identified during the 2 kilometer (1.24 mile) dispersal survey (June 29-30, 2011; Appendix B). The Vineyard Special Maintenance Zones are areas that are not associated with threatened or endangered species, but are under special management by request of Yamhill County residents. Herbicide spraying is prohibited in the Vineyard Special Maintenance Zones, which could be beneficial to the covered species. Each map in this appendix shows a portion of Yamhill County where Special Maintenance Zones occur. The location of these sites within Yamhill County can be identified by correlating the sheet number (e.g., Sheet 3) with the overview map or with the smaller map(s) of the county in the right-hand corner of the individual sheets. The following acronyms are used in these maps:

- GVA – Gopher Valley Area
- ORA – Oak Ridge Area
- T&E Special Maintenance Zone Roads – Threatened and Endangered Species Special Maintenance Zone Roads
